The world's fascination with New Orleans stems from the allure of the music of the city\_music that owes its origins and development to many sources. Until now, popular and scholarly books, dissertations, and articles that attempt to explain these sources have failed to recognize the unsung heroes of the New Orleans jazz scene: the teachers in its public schools. Through more than 90 original interviews and extensive research in New Orleans' historical collections, Dr.

Kennedy documents ways that public school teachers pushed an often unwilling urban institution to become an important structure that transmitted jazz and the other musical traditions of the city to future musicians. Music legends from Louis Armstrong to Ellis Marsalis Jr.\_who also provides the foreword\_are just two of the many well-known former students of the New Orleans public schools. Chord Changes on the Chalkboard shows that, particularly after the 1920s, public school students benefited not only from the study of instrumental music and theory, but also from direct exposure to musicians, many of whom were invited to perform for the students. The impact the teachers had on generations of musicians and music fans is undeniable, yet their teaching techniques are only part of the story. In addition to the successes enjoyed with their students, the teachers' own musical experiences, recordings, and performances are also examined. The interaction between teachers and students in New Orleans public school classrooms opens a new field of research for music historians, and this book is the first to document ways in which public school teachers acted as mentors to shape the future of jazz and the music of New Orleans. An important addition to its field, Chord Changes on a Chalkboard will provide invaluable information for jazz fans and historians, music scholars and students, and it is also useful reading for any public school teacher. A must for any music library, it should also be a welcome addition to any collection supporting African-American history or popular culture.

This is one of the main voicing reference volumes for the "Adventures in Harmony Music Course." The main instruction volume for this series is: The Handbook of Harmony - Gospel - Jazz - R&B - Soul COLOR - ISBN - 1453700951. B&W - ISBN - 1453684093. This volume contains voicings for their patent pending melody harmonization system. These are the voicing for the melody notes corresponding to the diatonic tones I through IV. This is part one of a two volume reference. Part two covers tones IV through major VII. The voicings in this reference are used in the patent pending system and technique created by Creative Music. Creative Music has developed a revolutionary method enabling keyboard musicians to quickly harmonize a line of notes with infinite chord changes. Imagine being able to play a different chord on every melody note! The system is such that no two musicians will come up with the same resulting harmonization. This is the first time that this information has appeared in print allowing anybody to

create that soulful sound in their music. With this course you will be creating harmonies and progressions to go with music of your choice. There are no songs or progressions to memorize in this course. This is because you are going to be creating your own progressions and harmonies to go with the songs that you choose. This is a step-by-step that you can apply to any piece of music Gregory Moody Creative Music's founder is an accomplished musician and software engineer, who comes from a family lineage of musicians, i.e., his world famous cousin NEA jazz master and recording artist, James Moody.
