

Division 0 12 Flash Cards

Why would Digital Age kids benefit from using flash cards? Because they offer a fun, fast, easy, time-tested way to memorise new information and apply important concepts. School Zone flash cards, in several unique formats, offer big learning power packed with near-endless possibilities.

Featuring 54 cards with full-color illustrations that help build meaning as well as help children make comparisons; these cards cover basic fraction facts from $1/1$ to $9/9$. Bonus cards that teach basic mathematical symbols (+, -, =) and a special card featuring creative games designed to reinforce learning are also included.

Features activities that teach size, comparisons, colors, numbers and shapes. School Zone Start to Read! Books present beginning readers with a variety of captivating stories told through rhyme, rhythm, and repetition for easy reading. Each book builds children's reading vocabulary and features an exciting or amusing plot with beautiful illustrations that support and extend the text.

In this new book from popular consultant and bestselling author Dr. Nicki Newton, you'll discover how to use Math Running Records to assess students' basic fact fluency and increase student achievement. Like a GPS, Math Running Records pinpoint exactly where students are in their understanding of basic math facts and then outline the next steps toward comprehensive fluency. This practical book introduces a research-based framework to assess students' thinking and move them toward becoming confident, proficient, flexible mathematicians with a robust sense of numbers. Topics include: Learning how often to administer Math Running Records and how to strategically introduce them into your existing curriculum; Analyzing, and interpreting Math Running Records for addition, subtraction, multiplication, and division; Using the data gathered from Math Running Records to implement evidence-based, research-driven instruction. Evaluating students' speed, accuracy, flexibility, and efficiency to help them attain computational fluency; Each chapter offers a variety of charts and tools that you can use in the classroom immediately, and the strategies can easily be adapted for students at all levels of math fluency across grades K-8. Videos of sample running records are also available for download at

Let's Leap Ahead flash cards help students learn division from 0 to 12. Kids learn best with materials they find fun and exciting, and our smartphone design is specially crafted to get kids excited about learning. The rounded top edge allows for easy sorting. The flash cards package includes a gift card so students can continue learning with Math Friendly, the most complete, fun, and educational app in iTunes and Google Play. Instructional Cards with games and strategies provide additional opportunities for practice.

Give students in grades 3–5 step-by-step strategies to achieve success using Mastering Math Facts: Multiplication and Division. This 128-page book provides mathematical, spatial, and kinesthetic strategies that are perfect for various learning styles and ability levels. It supports NCTM standards and includes reproducibles and hands-on activities for individual and whole-group instruction. Help preschoolers get ready for reading, writing, and numbers! This gigantic, 320-page book of creative, colorful activities will make learning feel like play. An A+ adventure unfolds, as kids encounter sensational squares and rocking rectangles, a giant newt reading the newspaper and a dinosaur playing the drums. Bold, bright colors and illustrations ease little ones into learning without feeling overwhelmed. Lessons focus on must-know readiness basics, including colors, shapes, the alphabet, basic phonics, early math, and more, and activities appear in order of increasing difficulty, so preschoolers stay challenged until the end, constantly expanding their skills. When all done, they can fill in their name on their very own reward certificate! The spiral-bound format means pages lay flat for ease of work and maximum concentration. When opened out flat, it can also fold over on itself, in half, to make a 9" X 10.75" lap-sized work surface while traveling or waiting somewhere without access to a table. School Zone products give kids their own Anywhere Teacher learning, anywhere and anytime!

"Brighter Child® First Words Flash Cards offer children a fun way to practice their first words to prepare for school. The set features 54 cards that help reinforce phonics, letter recognition, and reading readiness skills with full-color illustrations. A special card also offers creative game ideas designed to reinforce learning."

Introducing the Ultimate Fun Way to Learn Multiplication and Division! This color-coded format combines the best features of the traditional fact family flashcards on one side, with a visual representation and answers on the flip side. Multiply when the colors are the same and divide when the colors are different. Each two-sided card focuses on one fact family allowing students twice the practice for mastery of multiplication and division facts. Includes facts 0-12, 92 two-sided cards, and supports NCTM standards.

Contains 110 addition problems ranging from $0 + 0$ to $12 + 12$. At the top of each card is a small-print answer to the problem on the reverse side. More activities and games are included on the Parent Card.

Frazzled by fractions? Tortured by times tables? Let The Math Guru guide you! Anyone can be a math person -- and this book will help! It's designed for kids (and their parents) struggling with math anxiety and looking for a new approach to homework, studying, tests and marks. The most common problem areas in the curriculum are broken down and explained in an affirming and upbeat tone. Author and Math Guru Vanessa Vakharia is passionate about doing away with negative stereotypes, reducing math anxiety, and creating a positive math experience for every student and she wants to be your new math BFF! Kids will be encouraged to explore online resources, including inspirational videos, worksheets and additional activities.

Contains 50 cards printed on both sides with suggested activities. Use to memorize number sequence and develop grouping skills.

Mastering the basic facts for addition, subtraction, multiplication, and division is an essential goal for all students. Most educators also agree that success at higher levels of math hinges on this fundamental skill. But what's the best way to get there? Are flash cards, drills, and timed tests the answer? If so, then why do students go into the upper elementary grades (and beyond) still counting on their fingers or experiencing math anxiety? What does research say about teaching basic math facts so they will stick? In *Math Fact Fluency*, experts Jennifer Bay-Williams and Gina Kling provide the answers to these questions—and so much more. This book offers everything a teacher needs to teach, assess, and communicate with parents about basic math fact instruction, including The five fundamentals of fact fluency, which provide a research-based framework for effective instruction in the basic facts. Strategies students can use to find facts that are not yet committed to memory. More than 40 easy-to-make, easy-to-use games that provide engaging fact practice. More than 20 assessment tools that provide useful data on fact fluency and mastery. Suggestions and strategies for collaborating with families to help their children master the basic math facts. *Math Fact Fluency* is an indispensable guide for any educator who needs to teach basic facts. This approach to facts instruction, grounded in years of research, will transform students' learning of basic facts and help them become more confident, adept, and successful at math. This Multiplication and Division Math Workbook for 3rd 4th 5th Graders will improve

your child's success in class with lots of multiplication and division practice - Solutions Included. Packed with tons of fun exercises that kids will forget they're even learning! It even comes with a step-by-step guide on how to solve basic multiplying and dividing math problems, intermediate math problems and much more.--The level of difficulty progresses throughout the book, helping develop critical thinking skills and math skills.--An excellent math resource for students, teachers, tutors and parents!--Worksheets Full of Practice Drills / Facts and Exercises on Multiplying and Dividing--Includes fill in the blank problems to find missing multipliers and divisors with math facts as well as multiplying and dividing by 10, 100 and 1000.
