Also available: The Edexcel International GCSE Biology Student Book (ISBN 9781444179125) provides complete coverage of the content and skills required for the Edexcel International GCSE Biology specification and the Edexcel UK Certificate in Biology.

Offers complete coverage of the specification Includes free student ActiveBook CD-ROM Links to additional support and teacher support are provided online directly from Edexcel

The only textbook that completely covers the Oxford AQA International GCSE Biology specification (9201), for first teaching in September 2016. Written by experienced authors, the enquiry-based, international approach ensures a thorough understanding of the underlying principles of biology and provides exam-focused practice to build assessment confidence. It fully covers the 5 required

practicals in the specification, enabling your students to build the investigative and experimental skills required for assessment. This textbook helps students to develop the scientific, mathematical and practical skills and knowledge needed for the Oxford AQA International GCSE Biology exams and provides an excellent grounding for A Level study.

Exam paper covered: Edexcel GCSE (9-1) Psychology First teaching: September 2017 First exams: Summer 2019 Specifically designed to support you with the Edexcel GCSE (9-1) Psychology course and assessments. Provides contemporary and engaging examples that students can relate to such as 'why we forget things' and what can affect our memory'. 'Psychology in Action' features show how theories apply to everyday life. Helps students to build practical skills and apply knowledge with features such as 'Apply It', 'Try It' and 'Develop It'. Includes a dedicated chapter on research methods and provides maths tips throughout. Includes 'preparing for your exams' sections at the end of each topic plus lots of practice and guidance throughout, with a focus on the extended writing questions.

Exam Board: Edexcel Level: IGCSE Subject: Biology First Teaching: September 2017 First Exam: Summer 2019 Develop your students' scientific thinking and practical skills with this second edition, fully updated to match the new 2017 specifications. - Build students' knowledge with in-depth yet accessible scientific content - Test understanding with study questions throughout the book - Prepare students for the exam with sample answers and expert comments plus exam-style questions for every section - Build practical skills with coverage of all required practicals plus further suggested experiments - Develop mathematical skills with maths explanations and questions throughout - Answers to all activities freely available online

Providing complete coverage of the 2009 Edexcel IGCSE human biology specification, this book helps students perform to their best in the exam. The only textbook that fully supports the Oxford AQA International GCSE Biology specification (9201), for first teaching in September 2016. The enquiry-based, international approach builds scientific skills and knowledge, preparing students for the Oxford AQA International GCSE exams and supporting their progression to further A Level study.

Exam board: Pearson Edexcel Level: International GCSE (9-1) Subject: History First teaching: September 2017 First exams: Summer 2019 Follow the tried-and-tested methods of bestselling author Ben Walsh. This book builds the skills required for exam success, helps students to remember all the content and makes History really interesting. The authors have listened to feedback from teachers and students about the challenging aspects of the specification, to ensure that they deliver the support you need. You can rely on this textbook to: Straightforward language, manageable chunks of text and plenty of bullet points guide you through the content, which is covered in the amount of depth that students need Ben Walsh is known for selecting memorable sources and extracts

that work alongside the narrative to draw out the big concepts within each topic. The features in the book are designed to consolidate students' knowledge of the key points - from 'Focus' boxes and regular 'Knowledge check' questions to end-of-chapter summaries. Activities throughout the chapters and larger 'Focus tasks' teach students how to select, organise and use their knowledge to explain, analyse, evaluate and make judgements. Clear explanations of the exam requirements, analysis of what a good answer might look like and handy tips help students to feel confident and prepared. This book covers the following units: Historical investigations > Russia and the Soviet Union, 1905-24 > The USA, 1918-41. Breadth studies > Changes in medicine, c1848-c1948 > China: conflict, crisis and change, 1900-89 > The Middle East: conflict, crisis and change, 1917-2012.

Includes a pull-out wall chart, with stickers, so students can see their exams and revision opportunities at a glance. Contains a revision planner for a 16-week revision period, so students can plan their revision strategically across all of their GCSE subjects. Provides descriptions of practical exam techniques with pros and cons of each, helping students to identify the best approach for them. Helps students to identify key topics and measure confidence levels throughout the revision period. Hints and tips provide practical advice throughout.

The routine jobs of yesterday are being replaced by technology and/or shipped off-shore. In their place, job categories that require knowledge management, abstract reasoning, and personal services seem to be growing. The modern workplace requires workers to have broad cognitive and affective skills. Often referred to as "21st century skills," these skills include being able to solve complex problems, to think critically about tasks, to effectively communicate with people from a variety of different cultures and using a variety of different techniques, to work in collaboration with others, to adapt to rapidly changing environments and conditions for performing tasks, to effectively manage one's work, and to acquire new skills and information on one's own. The National Research Council (NRC) has convened two prior workshops on the topic of 21st century skills. The first, held in 2007, was designed to examine research on the skills required for the 21st century workplace and the extent to which they are meaningfully different from earlier eras and require corresponding changes in educational experiences. The second workshop, held in 2009, was designed to explore demand for these types of skills, consider intersections between science education reform goals and 21st century skills, examine models of high-quality science instruction that may develop the skills, and consider science teacher readiness for 21st century skills. The third workshop was intended to delve more deeply into the topic of assessment. The goal for this workshop was to capitalize on the prior efforts and explore strategies for assessing the five skills identified earlier. The Committee on the Assessment of 21st Century Skills was asked to organize a workshop that reviewed the assessments and related research for each of the five skills identified at the previous workshops, with special attention

to recent developments in technology-enabled assessment of critical thinking and problem-solving skills. In designing the workshop, the committee collapsed the five skills into three broad clusters as shown below: Cognitive skills: nonroutine problem solving, critical thinking, systems thinking Interpersonal skills: complex communication, social skills, team-work, cultural sensitivity, dealing with diversity Intrapersonal skills: self-management, time management, self-development, self-regulation, adaptability, executive functioning Assessing 21st Century Skills provides an integrated summary of the presentations and discussions from both parts of the third workshop.

This revision guide for Edexcel IGCSE Physics contains content summaries and key points for all the topics in the specification. It offers numerous revision questions to thoroughly prepare students for their examinations, and also includes revision tips and techniques.

For those who want the ease of not printing this yourself here it is! The extended edition includes 4 books in total, so you can buy them cheaper and have everything in one place. In here there is...The revision Guide; Maths and Calculator skills for science students; Maths (the chemistry bits) for science students; Maths (the physics bits) for science students; knowledge checklists for each topic in easy to understand language so you can check you haven't missed anything out; links to YouTube video that explain parts you don't understand; quick-fire questions for each topic with links to a YouTube video working through the answers; lists of equations and units that are essential to learn for physics; lists of ions, equations and formula that are essential to learn for chemistry; diagrams to label; keyword lists and crosswords. This will be updated in January 2019

Target success in Edexcel International GCSE Biology with this proven formula for effective, structured revision; key content coverage is combined with exam-style tasks and practical tips to create a revision guide that students can rely on to review, strengthen and test their knowledge. - Plan and manage a successful revision programme using the topic-by-topic planner - Consolidate subject knowledge by working through clear and focused content coverage - Test understanding and identify areas for improvement with regular 'Now Test Yourself' tasks and answers - Improve exam technique through practice questions, expert tips and examples of typical mistakes to avoid - Get exam ready with extra quick quizzes and answers to the practice questions available online

Exam Board: Edexcel Level & Subject: International GCSE Biology and Double Award Science First teaching: September 2017 First exams: June 2019

This text matches the specification for teaching A level Biology from September 2000.

Accessible language and layout should encourage students who may otherwise find it difficult to reach good A Level standards. Extension boxes contain more advanced material for more able students.
