Claire Kann's *If It Makes You Happy* is a coming-of-age novel about a young girl learning to embrace her cultural and sexuality identity. Winnie is living her best fat girl life and is on her way to the best place on earth. No, not Disneyland--her Granny's diner, Goldeen's, in the small town of Misty Haven. While there, she works in her fabulous 50's inspired uniform, twirling around the diner floor and earning an obscene amount of tips. With her family and girlfriend at her side, she has everything she needs for one last perfect summer before starting college in the fall. ...until she becomes Misty Haven's Summer Queen in a highly anticipated matchmaking tradition that she wants absolutely nothing to do with. Newly crowned, Winnie is forced to take center stage in photoshoots and a never-ending list of community royal engagements. Almost immediately, she discovers that she's deathly afraid of it all: the spotlight, the obligations, and the way her Merry Haven Summer King, wears his heart, humor, and honesty on his sleeve. Stripped of Goldeen's protective bubble, to salvage her summer Winnie must conquer her fears, defy expectations, and be the best Winnie she knows she can be—regardless of what anyone else thinks of her.

NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the

world they dominate, you need to understand the Four.

Introduction: so you want to go public? -- Writing beyond the academy -- Telling stories about your research -- Books for general audiences -- The digital turn -- Building an audience -- The perils of going public -- Making it count, making a difference

Tim Cotton has been a police officer for more than thirty years. The writer in him has always been drawn to the stories of the people he has met along the way. Dealing with the standard issue ne'er-do-wells as a patrol officer, homicide detective, polygraph examiner, and later as the lieutenant in charge of the criminal investigation division certainly provides an interesting backdrop—but more often he writes about the regular folks he encounters, people who need his help, or those who just want to share a joke or even a sad story. The Detective in the Dooryard is composed of stories about the people, places, and things of Maine. There are sad stories, big events, and even the very mundane, all told from the perspective of a seasoned police officer and in the wry voice of a lifelong Mainer. Many of the stories will leave you chuckling, some will invariably bring tears to your eyes, but all will leave you with a profound sense of hope and positivity.

America takes 75% of the world's medications and seven out of ten people die of chronic and preventable diseases. The health care system meant to remedy this problem is now the third leading cause of death itself. This exists because we often ignore our health or assume we are healthy until disease hits. Then once disease hits we manage the sickness with drugs and surgeries. That's not health care, that's sick care. This book is the guide to experience real health. If you manage sickness and disease you get sickness and disease, if you build health you get health.

When three bunnies are told they won't be going home with their mother one day after school, they are thrust into a strange and scary new world. A Cave to Call Home is a lyrical picture book. This foster and adoption story weaves together aspects of trauma, attachment bonding, first families, and racial differences in an age-appropriate way (age 3-6). A Cave to Call Home is a beautiful bedtime story that will begin conversations and connection. Yet these heavy topics are subtle enough as to not be a hindrance to the overall enjoyment of the story by families who have not adopted. This book was written as a love letter to our future children. It is my hope that it becomes a resource for other foster and adoptive families, as a tool for connection and a place to start conversations about complex topics. A percentage of each book sale will be donated to a different foster and/or adoption charity each year.

He proposes they pretend to fall for each other on the weekend trip to make Malcolm jealous. The Sun is now friends with Earth and 7 other planets Pluto: Not cool. What if Facebook had emerged with the Big Bang, and every historical event took place online? Imagine how we'd see history if . . . Alexander the Great "checked into" all the countries he conquered Donald Trump and Vladimir Putin "Liked" each other's cryptic statuses Irreverent and clever, *The History of the World According to Facebook* goes back through time, from the beginning of the world to the present, to cover all the major events and eras of human history, such as the Renaissance, the Industrial Revolution, and the Information Age. Wylie Overstreet brings the book up to date with three-dozen pages of additional material on contemporary figures and topics, from Caitlin Jenner to Deflategate to MAGA and Trump. Filled with hundreds of actual figures from across the centuries and thousands of invented statuses, comments, and actions lampooning Facebook users' penchant for oversharing, abbreviation, self-importance, and lazy jargon, *The History of the World According to Facebook* defies all attempts at taking the multi-billion user social media platform SRSLY. It is the funniest parody of history and the dawn of man since, well, the dawn of man.

This powerful activity book will engage hands, hearts, and minds as it introduces children to the guiding principles of the Black Lives Matter movement. When the Black Lives Matter movement began in 2013, the three founders--Alicia Garza, Patrisse Khan-Cullors, and Opal Tometi--anchored its work in a list of guiding principles, developed through conversation with other activists. These principles commit the movement to empathy, loving engagement, and just action among its participants; affirm the importance of Black women, families, elders, and LGBTQ folk; and celebrate the strength and diversity of Black people in their communities and around the globe. Now young people can explore these powerful principles in *What We Believe: A Black Lives Matter Principles Activity Book*. Created by two teachers with more than thirty-five years of educational experience between them, the book presents the guiding principles in down-to-earth, child-friendly language, with each principle accompanied by writing prompts, space for children or adults to create their own reflections, and a coloring page. Supporting materials guide adults in sharing the principles with children and encourage kids to dream big and take action within their communities. An essential resource for anyone discussing racial equity with young people, *What We Believe* offers a beautiful and inspiring lens on the most important social justice movement of our time. Lee & Low Books will donate a portion of its proceeds from the book to the Black Lives Matter Global Network Foundation, Inc. PEP Practice

QUESTION: Who should read this book? ANSWER: Anyone who wants to use the power of Facebook marketing to grow a business can read and benefit from the book. Specifically speaking, If you can relate to any of the below-mentioned professions/ roles, you can implement these tips to build a massive fan following --: Facebook Marketer Entrepreneur/Solopreneur Small Business/Startup Blogger/writer Digital Marketing student Facebook Page Owner. QUESTION: Do these Tips really work? ANSWER: The tips have worked for me and my clients and will work for you when you invest the required time and efforts in it. I can understand your doubt but let me clarify that I am not a magician and I have not discussed any magic trick in this book that will automatically increase your Facebook page overnight. I have shared my learnings as a professional digital Marketer working on hundreds of Facebook marketing projects at a digital marketing agency. Like all good things, you will have to spend time and resources to implement these tips to get results. I have focused on sharing tips that help in building fan following of engaged users and prospects who buy your products and services rather than any Facebook user. At the end, I just want to say that even the best Facebook page like tip will not get your result unless you try it. QUESTION: The book discusses how to increase Facebook followers, what about converting these followers into customers? ANSWER: As a marketer, I understand the importance of ROI and business results. Facebook Marketing is complex and requires many concept clarifications hence I have planned to write a book series on Facebook Marketing which takes readers from building their fan following to getting them interested in products/services to converting them into business leads. This book is the first book in the Facebook Marketing Series. The second book will discuss nurturing strategies for Facebook fan followers and the third book will discuss how to convert followers into business leads.

I am very excited about this daily devotion book. The reason is because I have written four daily devotion books over the past sixteen years. The first one had been a devotion for each of the one-hour lectures that I had had at Liberty Baptist Theological Seminary. I had completed all of my coursework and had graduated in 2001. But unfortunately, many of those devotions had been too technical and not very interesting for many readers. The second daily devotion book that I wrote had been about many of the people who appear in the scriptures. Every person has a story. So that devotion book had tried to tell each person's story in two hundred words or less. The third daily devotion book that I wrote had been on the book of Proverbs. The unique thing about that devotion book is that the date of the devotions had matched the chapter numbers of the book of Proverbs. Many people have discovered that the thirty-one chapters in the book of Proverbs can be read in a single month by matching the chapter to the date. Therefore, that devotion book had stuck to that plan, too. Finally, the fourth devotion book that I wrote had been from the book of Psalms. There had been at least one devotion in that book for each psalm. Obviously there had been more than one devotion for some of the psalms. So in posting a devotion on Facebook each day, I have had many fairly short devotions from which to choose out of those four different devotion books that I have already written. But having that flexibility has not been the real reason for my being so excited about this particular devotion book. To the contrary, it has been because I have had the opportunity to clean up a lot of the sloppy writing of especially those first two devotion books. If one has already suffered through either of those, then he or she is already aware of the very long sentences that had sometimes been broken up by two, three, and sometimes even four commas without a single period. For all of these years since that first devotion book, it has never been practical for me to go back and edit books that are already more than fifteen years old. But to clean up old devotions for a new book has made perfect sense. So that is what I have done. Hopefully the edited devotions will be much easier to read than the originals. Another reason for excitement with this book is the possibility of having a volume two of daily devotions for Facebook. I still have many devotions from those first four books that can be used which also can use some editing. So if this devotion book does well, then a volume two will probably be in the works. But whether that actually happens or not, the goal

of this book as with all of my books is to bring honor and glory to the Lord and to proclaim His Word to whoever is interested. The Bible is without question the greatest and most valuable book ever written. Some things in it are easy enough for a young child to understand. But some of the things in it are complicated enough to keep an old fool such as myself entertained for a lifetime. I love the Lord. I love the Bible. I love to study the Bible, and I love to write about that which I have studied. If a person will look at all of the books that I have been able to write, it should convince the reader of one important fact about me. I have lived a very blessed life. In fact, if one reads my testimony ("Finding My Way Home"), then it will be very clear just how blessed I really have been. So for all that the Lord has done for me, I wish to publicly thank Him and praise His holy name.
