"A beautifully written, highly seductive debut....The chemistry between Branwell and Lydia positively crackles on the page....Masterful storytelling which is sure to delight fans of the Brontës and of historical fiction." –Hazel Gaynor, New York Times bestselling author of *The Lighthouse Keeper's Daughter* This dazzling debut novel for fans of Mrs. Poe and *Longbourn* explores the scandalous historical love affair between Branwell Brontë and Lydia Robinson, giving voice to the woman who allegedly corrupted her son's innocent tutor and brought down the entire Brontë family. Yorkshire, 1843: Lydia Robinson—mistress of Thorp Green Hall—has lost her precious young daughter and her mother within the same year. She returns to her bleak home, grief-stricken and unmoored. With her teenage daughters rebelling, her testy mother-in-law scrutinizing her every move, and her marriage grown cold, Lydia is restless and yearning for something more. All of that changes with the arrival of her son's tutor, Branwell Brontë, brother of her daughters' governess, Miss Anne Brontë and those other writerly sisters, Charlotte and Emily. Branwell has his own demons to contend with—including living up to the ideals of his intelligent family—but his presence is a breath of fresh air for Lydia. Handsome, passionate, and uninhibited by social conventions, he's also twenty-five to her forty-three. A love of poetry, music, and theatre bring mistress and tutor together, and Branwell's colorful tales of his sisters' elaborate play-acting and made-up worlds form the backdrop for seduction. But Lydia's new taste of passion comes with consequences. As Branwell's inner turmoil rises to the surface, his behavior grows erratic and dangerous, and whispers of their passionate relationship spout from her servants' lips, reaching all three protective Brontë sisters. Soon, it falls on Lydia to save not just her reputation, but her way of life, before those clever girls reveal all her secrets in their novels. Unfortunately, she might be too late. Meticulously researched and deliciously told, Brontë's *Mistress* is a captivating reimagining of the scandalous affair that has divided Brontë enthusiasts for generations and an illuminating portrait of a courageous, sharp-witted woman who fights to emerge with her dignity intact.

Navigational rights and freedoms have been central to the development of the law of the sea since the original debates over whether the seas were 'open' or 'closed' to maritime traffic. The 1982 UN Convention on the Law of the Sea recognises the legitimate rights of coastal states to proclaim sovereignty and assert jurisdiction over vast areas of maritime space. In return, maritime states are given a range of navigational rights over waters ranging from the territorial sea through to the high sea. The new regime of the law of the sea created by the Convention presents an opportunity to review developments in the law of navigational rights and freedoms. This book assesses the navigational regime established by the 1982 Convention, with emphasis given to the continuing importance of the freedom of the seas. Navigation in the territorial sea and international straits is reviewed, especially in the Straits of Malacca and Singapore, and the Torres Strait. Archipelagic navigation from the perspective of two claimant states, Indonesia and the Philippines, and a user state, South Korea, is also considered. The interaction of environmental concerns with navigational rights is an important feature of the current law of the sea regime with relevant conventions assessed and the role of the International Maritime Organization

in developing navigational standards considered. Both European and Canadian practice in the protection of sensitive marine environments and the impact upon navigational rights is also considered. Finally, the roles of the International Tribunal for the Law of the Sea and the International Maritime Organization in dispute resolution are reviewed, before a concluding consideration of the future for navigational rights and freedoms in the twenty-first century.

We live in a world where beauty is everything. Society tells us that if we just looked a certain way, if we had the right products, if we were skinny enough, then we would be enough—we would have value. Society is wrong, but it took Katie H. Willcox years to understand this: "Over the course of my 30 short years, I have both worked as a professional model and been the exact opposite of our culture's beauty ideal. I have struggled with my weight and felt like I didn't and never would fit in. Then I had a powerful realization: my misery and self-loathing didn't change with my weight or how 'pretty' society thought I was, so my looks weren't the source of happiness and worth that I had believed them to be. But then, what was? And how had I come to invest so much of myself in beliefs that were so untrue?" In these pages, Katie shares the lessons she learned in her journey to find the answers to these questions. She reveals who gains from our feeling small and why we need to examine the messages we receive from our culture and our families. She explains how we can redefine beauty, make healthy the new "skinny," and harness the power of our thoughts to choose self-love. Katie encourages us to discover our true magnificent selves, find our purpose, and pursue our

dreams—and help others to do the same. Join the movement! Visit www.HealthyIsTheNewSkinny.com and follow us on Instagram @healthyisthenewskinny.
