

Let Me Out A Madhouse Diary

SINCE my experiences in Blackwell's Island Insane Asylum were published in the World I have received hundreds of letters in regard to it. The edition containing my story long since ran out, and I have been prevailed upon to allow it to be published in book form, to satisfy the hundreds who are yet asking for copies. I am happy to be able to state as a result of my visit to the asylum and the exposures consequent thereon, that the City of New York has appropriated \$1,000,000 more per annum than ever before for the care of the insane. So I have at least the satisfaction of knowing that the poor unfortunates will be the better cared for because of my work.

The award-winning climate scientist Michael E. Mann and the Pulitzer Prize-winning political cartoonist Tom Toles have been on the front lines of the fight against climate denialism for most of their careers. They have witnessed the manipulation of the media by business and political interests and the unconscionable play to partisanship on issues that affect the well-being of billions. The lessons they have learned have been invaluable, inspiring this brilliant, colorful escape hatch from the madhouse of the climate wars. The Madhouse Effect portrays the intellectual pretzels into which denialists must twist

logic to explain away the clear evidence that human activity has changed Earth's climate. Toles's cartoons collapse counter-scientific strategies into their biased components, helping readers see how to best strike at these fallacies. Mann's expert skills at science communication aim to restore sanity to a debate that continues to rage against widely acknowledged scientific consensus. The synergy of these two climate science crusaders enlivens the gloom and doom of so many climate-themed books—and may even convert die-hard doubters to the side of sound science.

A courageous female journalist's classic exposé of the horrific treatment of the mentally ill in nineteenth-century America In 1887, Nellie Bly accepted an assignment from publisher Joseph Pulitzer of the New York World and went undercover at the lunatic asylum on Blackwell Island, America's first municipal mental hospital. Calling herself "Nellie Brown," she was able to convince policemen, a judge, and a series of doctors of her madness with a few well-practiced facial expressions of derangement. At the institution, Bly discovered the stuff of nightmares. Mentally ill patients were fed rotten, inedible food; violently abused by a brutal, uncaring staff; and misdiagnosed, mistreated, or generally

ignored by the doctors and so-called mental health experts entrusted with their care. To her horror, Bly encountered sane patients who had been committed on the barest of pretenses and came to the shocking realization that, while the Blackwell Island asylum was remarkably easy to get into, it was nearly impossible to leave. Have you ever grown tired of the constant white-washing of Socialist countries by today's mass media? Well, here's the antidote - a 120,000 word expose on the real contemporary Sweden, fully unmasked in all its vileness. ... the families whose children were taken by the government as they attempted to leave the country, and the ex-Communists who want to make the very attempt to do so a crime. ... the social authorities justifying in official documents seizing a woman's new-born child at the maternity hospital. ... the Muslim man who won a discrimination lawsuit after botching a job interview from refusing to shake a woman's hand, and also sued the government after losing welfare payouts from not shaking the hands of the female welfare officer. ... the homosexual man who attempted to sue the municipality after he was prevented from browsing naked personal ads at the library, and about the prisoner who filed a complaint with the government after the warden in charge of him told him to shut up. ... the world's most luxurious prisons and the inmates talking about how joyful their stays were. Swedish inmates get to choose where they want to do their time, and they can afford to be picky. ... the convicted rapist who cost society eleven legal proceedings to keep the porn magazines that had been taken from him, and finishes by suing the government for damages because the prison had kept them from him. ... the military man who while heavily intoxicated shot dead seven people and landed 48 out of 48 fired bullets against running victims, to then be granted furloughs after only a couple of years in prison. ... the male Supreme Court Justice who was convicted of having illegally bought sexual services from a

young man and then was able to stay on his post. ... the elite of Swedish society during the 1970's molesting underaged girls who were wards of the state, including two prime ministers as suspects; as well as the society that has only a fine as standard punishment for distributing child porn. ... the physically disabled and immobile immigrant who's got eleven government-paid personal assistants so that he can drink whiskey and smoke cigarettes all day. ... the 79 parliamentary bills that address LGBT rights and cover everything in society, from elder care to foreign aid. "Unfortunately only a fraction of SIDA's [the foreign aid agency] budget today goes to LGBT work" from one of the bills. ... how doctors can be sentenced to prison for refusing to perform abortions, and shepherds that risk being attacked by bears can't even get permits for revolvers. ... how citizens can be convicted of cruelty to animals if they don't spend "a couple of hours every day" petting their cat. ... the state TV that held a tribute night to Fidel Castro. "Castro isn't a dictator in the sense the propaganda claims" - actual quote from this evening, on top of repeated programming praising "Che" Guevara. ... the many political dissidents sentenced to prison for the views they've expressed, and learn about what they had to say. ... the young man who already as a teenager was convicted of "hate speech" and who within 12 years would have gone to court no less than 12 times over such charges. ... the country that almost

This is a compilation of stories, facts and anecdotes from what must truly be the most insane country on the planet, with nothing else like it, organized into twelve chapters covering different areas of society.

Doug Stanhope is one of the most critically acclaimed and stridently unrepentant comedians of his generation. What will surprise some is that he owes so much of his dark and sometimes uncomfortably honest sense of humor to his mother, Bonnie. It was the cartoons in her Hustler magazine issues that molded the beginnings of his comedic journey, long before he was old enough to know what to do with the actual pornography. It was Bonnie who recited Monty Python sketches with him, who introduced him to Richard Pryor at nine years old, and who rescued him from a psychologist when he brought that brand of humor to school. And it was Bonnie who took him along to all of her AA meetings, where Doug undoubtedly found inspiration for his own storytelling. Bonnie's own path from bartending to truck driving, massage therapy, elder abuse, stand-up comedy, and acting never stopped her from being Doug's genuine number one fan. So when her alcoholic, hoarding life finally came to an end many weird adventures later in rural Arizona, it was inevitable that Doug and Bonnie would be

together for one last excursion. Digging Up Mother follows Doug's absurd, chaotic, and often obscene life as it intersects with that of his best friend, biggest fan, and love of his life-his mother. And it all starts with her death-one of the most memorable and amazing farewells you will ever read.

Frank and Joe Hardy must go undercover on a television show to discover who is hurting the contestants.

A dramatic tale filled with passion and depression, poverty and ridicule, infidelity and redemption, this is the unforgettable story of Mary Todd Lincoln—one of history's most enigmatic and misunderstood women. Writing from Bellevue asylum—where the shrieks of the other inmates keep her awake at night—a famous widow finally shares the story of her life in her own words. From her tempestuous childhood in a slaveholding Southern family through the opium clouded years after her husband's death, we are let into the inner, intimate world of this brave and fascinating woman. Intelligent and unconventional—and, some thought, mad—she held séances in the White House, ran her family into debt with compulsive shopping, negotiated with conniving politicians, and raised her young sons during the Civil War. She was also a political strategist, a comfort to wounded soldiers, a supporter of emancipation, the first to be called First Lady, and a wife and mother who survived the loss of three children and the

assassination of her beloved husband.

KNOCKIN' ON EVIL'S DOOR Werewolves. Trolls. Sea Monsters. Rain of toads. Skyquakes. Sunnydale is being besieged by dark forces. But even with Buffy providing her unique style of damage control while Giles is hospitalized out of town, it's more than one Slayer can handle -- especially since the abominations are coming from a centuries-old portal through time and space. Somehow, the hell-hole must be found and corked at its source. For Buffy, Angel, and the rest of her gang, that means a road trip to Boston where an ailing Gatekeeper resides over a supernatural mansion that has been, until recently, holding the world's worst monsters at bay. Once there, Buffy discovers the catastrophic truth: the magical structure houses thousands of rooms, all of which are doorways to limbo's "ghost roads," and all of which may bring her face-to-face with the most nefarious forces in hell and on earth -- forces bent on horrific plans far worse than the Slayer ever imagined.

"In April of 2004, the long downward spiraling of Amy Bingaman's mental illness could no longer be hidden or ignored much less written off as a side-product of a colorful and quirky character. With no family able to help and no resources, she was involuntarily locked up in the draconian, archaic labyrinth that is the Wyoming Mental Health System. Armed with only a pocket dictionary and any

paper she could find to write on, Amy wrote not only as a journal but at times as her only coping mechanism to salvage what was left of a breaking mind in a love/hate relationship with her alter-ego who she'd come to call "Lucille." Over the course of her first 33 days she kept copious notes of her time there, detailing treatment (or mistreatment) befitting a prisoner rather than the sufferer of a psychological disorder. These diaries roller-coaster between terrifying and hilarious, chronicling from her first morning waking up confused in a disheveled ball gown, living at the mercy of staff who range from inept to cruel and with fellow patients who's light, hope and brilliance are twisted with the daily wrestling of their own debilitating psychotic breaks from reality. What results is an unedited, in-the-moment take-down of what consists of mental health care in this country, as lived from the inside by its weakest links, those it is intended to protect. And for all the dark humor and vivid humanity, she hopes you will be left with the knowledge that since that time, little or nothing in the system has changed." -DOUG STANHOPE

“Ten Days in a Mad-House” led to a grand jury investigation and increased funding for the Department of Public Charities and Corrections, as well as an entirely new style of investigative journalism. Elizabeth Cochrane Seaman (1864–1922), also known as Nellie Bly, was an American industrialist, journalist, charity worker, and inventor famous for her 72-day trip around the world in the footsteps of the fictional Phileas Fogg. Other notable works by this author include: “Six Months in Mexico” (1888), “The Mystery of Central Park” (1889), and “Nellie Bly’s Book: Around the World in Seventy-two Days” (1890). Read & Co. Books is republishing this classic journalistic work in a new edition complete with an introductory biography by Frances E. Willard and Mary A. Livermore.

American Pastoral is the story of a fortunate American's rise and fall—of a strong, confident master of social equilibrium overwhelmed by the forces of social disorder. Seymour “Swede” Levov—a legendary high school athlete, a devoted family man, a hard worker, the prosperous inheritor of his father's Newark glove factory—comes of age in thriving, triumphant postwar America. But everything he loves is lost when the country begins to run amok in the turbulent 1960s. Not even the most private, well-intentioned citizen, it seems, gets to sidestep the sweep of history. With vigorous realism, Roth takes us back to the conflicts and violent transitions of the 1960s. This is a book about loving—and hating—America. It's a book about wanting to belong—and refusing to belong—to America. It sets the desire for an American pastoral—a respectable life of space, calm, order, optimism, and achievement—against the indigenous American Berserk.
