In his 2003 National Book Award-winning memoir *Waiting for Snow in Havana*, Carlos Eire narrated his coming of age in Cuba just before and during the Castro revolution. That book literally ends in midair as eleven-year-old Carlos and his older brother leave Havana on an airplane—along with thousands of other children—to begin their new life in Miami in 1962. It would be years before he would see his mother again. He would never again see his beloved father. *Learning to Die in Miami* opens as the plane lands and Carlos faces, with trepidation and excitement, his new life. He quickly realizes that in order for his new American self to emerge, his Cuban self must "die." And so, with great enterprise and purpose, he begins his journey. We follow Carlos as he adjusts to life in his new home. Faced with learning English, attending American schools, and an uncertain future, young Carlos confronts the age-old immigrant's plight: being surrounded by American bounty, but not able to partake right away. The abundance America has to offer excites him and, regardless of how grim his living situation becomes, he eagerly forges ahead with his own personal assimilation program, shedding the vestiges of his old life almost immediately, even changing his name to Charles. Cuba becomes a remote and vague idea in the back of his mind, something he used to know well, but now it "had ceased to be part of the world." But as Carlos comes to grips with his strange surroundings, he must also struggle with everyday issues of growing up. His constant movement between foster homes and the eventual realization that his parents are far away in Cuba bring on an acute awareness that his life has irrevocably changed. Flashing back and forth between past and future, we watch as Carlos balances the divide between his past and present homes and finds his way in this strange new world, one that seems to hold the exhilarating promise of infinite possibilities and one that he will eventually claim as his own. An exorcism and an ode, *Learning to Die in Miami* is a celebration of renewal—of those times when we're certain we have died and then are somehow, miraculously, reborn.

At the same time, Russia, Sweden, Denmark, and Prussia are forming a League of Armed Neutrality, to Napoleon Bonaparte's delight, to deny Great Britain their vital exports, even if it means war. England will need all her experienced sea dogs, but ... even Alan Lewrie? Ultimately Lewis is acquitted, but he's also ignored by the Navy, so it's half-pay on "civvy street" for him, and with idle time on his mischievous hands, Lewrie is sure to get himself in trouble---again!---especially if there are young women and his wastrel public school friends involved...and they are! A brawl in a Panton Saint brothel, a drunk, infatuated young Russian count, precede Lewrie's summons to Admiralty and the command of the Thermopylae frigate to replace an ill captain as the fleet gathers to face down the League of the North, and its instigator, the mad Tsar Paul. Lewrie must take the Thermopylae into the Baltic in the dead of winter, alone and with no support, to scout the enemy fleets and iced-in harbours, deal with a fellow officer who is less of a friend than he thought, and be saddled with a pair of Russian noblemen as a last-minute peace delegation, but if the wily Foreign Office spy-master, Zachariah Twigg, sent them, what else might their mission be? All that and the Battle of Copenhagen, too, and it's broadsides at close quarters, and treachery for Lewrie, forcing him to use all his wiles to survive!
