Osama bin Laden's former sister-in-law provides a penetrating, unusually intimate look into Saudi society and the bin Laden family's role within it, as well as the treatment of Saudi women. On September 11th, 2001, Carmen bin Ladin heard the news that the Twin Towers had been struck. She instinctively knew that her ex-brother-in-law was involved in these horrifying acts of terrorism, and her heart went out to America. She also knew that her life and the lives of her family would never be the same again. Carmen bin Ladin, half Swiss and half Persian, married into and later divorced from the bin Laden family and found herself inside a complex and vast clan, part of a society that she neither knew nor understood. Her story takes us inside the bin Laden family and one of the most powerful, secretive, and repressed kingdoms in the world.

Due to the complexity of his thought and the density of his writing, the German philosopher Martin Heidegger is often considered an intellectual time bomb. Here his revolutionary ideas are broken down and made accessible for the curious beginner.

How right-wing political entrepreneurs around the world use religious offense—both given and taken—to mobilize supporters and marginalize opponents. In the United States, elements of the religious right fuel fears of an existential Islamic threat, spreading anti-Muslim rhetoric into mainstream politics. In Indonesia, Muslim absolutists urge suppression of churches and minority sects, fostering a climate of rising intolerance. In India, Narendra Modi's radical supporters instigate communal riots and academic censorship in pursuit of their Hindu nationalist vision. Outbreaks of religious intolerance are usually assumed to be visceral and spontaneous. But in *Hate Spin*, Cherian George shows that they often involve sophisticated campaigns manufactured by political opportunists to mobilize supporters and marginalize opponents. Right-wing networks orchestrate the giving of offense and the taking of offense as instruments of identity politics, exploiting democratic space to promote agendas that undermine democratic values. George calls this strategy “hate spin”—a double-sided technique

that combines hate speech (incitement through vilification) with manufactured offense-taking (the performing of righteous indignation). It is deployed in societies as diverse as Buddhist Myanmar and Orthodox Christian Russia. George looks at the world's three largest democracies, where intolerant groups within India's Hindu right, America's Christian right, and Indonesia's Muslim right are all accomplished users of hate spin. He also shows how the Internet and Google have opened up new opportunities for cross-border hate spin. George argues that governments must protect vulnerable communities by prohibiting calls to action that lead directly to discrimination and violence. But laws that try to protect believers' feelings against all provocative expression invariably backfire. They arm hate spin agents' offense-taking campaigns with legal ammunition. Anti-discrimination laws and a commitment to religious equality will protect communities more meaningfully than misguided attempts to insulate them from insult.

Read Josh Sundquist's posts on the Penguin Blog. One moment Josh Sundquist was your typical energetic and inquisitive nine year- old boy. The next, his entire life changed when he was diagnosed with Ewing's Sarcoma, a particularly virulent cancer strain that would eventually claim Josh's left leg. Told in a wide-eyed, winning, heartbreaking voice, Just Don't Fall is the story of the boy Josh was and of the young man he became. His story begins in a small, close-knit Southern town, where his father-an aspiring pastor questioning his faith, and his mother--homeschooling an ever- growing brood of children-struggle to make ends meet. Josh journeys through a dizzying array of hospitals and eventually lands at a pivotal place: the nearby mountain, where he makes his first attempt to ski. It is on the slopes, and later, on the race course, that Josh's world bursts wide open in a way no one could have ever anticipated. The inspiration to ski, however, and to become a champion, is not all that Josh has to contend with--there is adolescence to navigate, the transition from homeschool to public high school, and girls. There is an increasingly turbulent and difficult home life, with another cancer scare, a wayward brother, and dwindling finances to pay for training. Finally, there is the wild, bumpy road to the Paralympics in Turin, with a misanthropic coach, training in the Rockies, and a timeless friendship with a charismatic, imposing Brooklyn homeboy named Ralph. Through it all, Josh is forced to question his abilities, his sanity, his will, his faith in himself, and his faith in God. Because of, not despite, these myriad obstacles in his path, Josh is able to achieve a genuine grace: the grace to risk failure and to succeed. It is the grace of a young boy becoming a man and of a champion realizing his greatest dream. Josh Sundquist shows us with charm, humility and remarkable strength that even if we fall, this inner grace can lift us up and carry us over the many mountains we all must face.

Virtually all theories of satire define it as a criticism of contemporary society. Some argue that satire criticizes the present in favor of a standard of values that has been superseded, and thus that satire is generally backward-looking and conservative. While this is often true of poetic satire, in this study Frank Palmeri asserts that narrative satire performs a different function, that it parodies both the established view of the world and that of its opponents, offering its own distinctive critical perspective. This theory of satire builds on the idea of dialogical parody in the work of Russian theorist Mikhail Bakhtin, while revising Bakhtin's estimate of carnival. In Palmeri's view, the carnivalesque offers only an inverted mirror image of authoritative discourse, while parodic narrative satire suggests an alternative to both the official world and its inverted opposite. Palmeri applies this theory of narrative satire to five works of world literature, each of which has generated sharp controversy about the genre to which it rightly belongs: Petronius' *Satyricon*, Jonathan Swift's *A Tale of a Tub*, Edward Gibbon's *Decline and Fall of the Roman Empire*, Herman Melville's *The Confidence-Man*, and Thomas Pynchon's *The Crying of Lot 49*. He analyzes the features that link these works and shows how the changing pairs of alternatives that are parodied in these satires reflect changes in the terms of social and cultural oppositions. *Satire in Narrative* will appeal to comparatists, specialists in eighteenth-century and American literature, and others interested in theories of genre and the relations between literary forms and social history.

Webber argues for a new interpretation of Sartrean existentialism. On this reading, Sartre is arguing that each person's character consists in the projects they choose to pursue and that we are all already aware of this but prefer not to face it. Careful consideration of his existentialist writings shows this to be the unifying theme of his theories of consciousness, freedom, the self, bad faith, personal relationships, existential psychoanalysis, and the possibility of authenticity. Developing this account affords many insights into various aspects of his philosophy, not least concerning the origins, structure, and effects of bad faith and the

resulting ethic of authenticity. This discussion makes clear the contributions that Sartre's work can make to current debates over the objectivity of ethics and the psychology of agency, character, and selfhood. Written in an accessible style and illustrated with reference to Sartre's fiction, this book should appeal to general readers and students as well as to specialists.

Twelve years ago, a young girl disappeared. Now a filmmaker has made a movie about it. The girl's parents call it invasion of privacy. A woman lawyer calls it murder. The bloodstains on the courtroom floor belong to attorney Nina Reilly. Months earlier she'd been shot during a heated murder trial. She should have died that day. Instead, Nina has returned to the same Lake Tahoe court. Her only concession to her lingering fear is to give up criminal law. She figures an invasion of privacy lawsuit is a nice, safe civil action that will help her support her young son and pay the bills for her one-woman law office. She figures wrong. Nina's client is Terry London, a filmmaker whose documentary about a missing girl is raising disturbing questions. The girl's distraught parents believe the film invades their privacy. But Terry's brutal murder changes everything. Breaking her promise to herself, Nina decides to defend Terry's accused murderer, a man she'd known years before and hoped never to see again. Suddenly the secrets of Nina's past are beginning to surface in a murder case that gets more dangerous every day. The evidence against her client is shocking and ironclad--a video of Terry's dying words. The only chance Nina has to save the man may be illegal. And if it fails, Nina may lose the case, her practice...and even her life.

In Jakarta's gleaming center a man and a woman watch each other from adjoining skyscrapers. The man, a journalist, has on his desk reports he doesn't dare publish of a massacre in East Timor. He contemplates the demands of truth and confronts the split in his world between a sophisticated urban life where the women waft by in signature perfumes, and the primitive oppression of Indonesia's army state in East Timor. Only jazz mediates. A music of raw emotion and powerful refinement, urbane yet born in the growl and moan of generations of slaves, jazz is not literal, but absolutely true. So too this novel, which defied Indonesia's regime of censorship and made available, in its pages, the heavily censored reality that journalists dared not report. In "Jazz, Perfume and the Incident," Seno Gumira Ajidarma combines the surreal and the actual in a way that forever changed Indonesian literature and political discourse.

John Naughton is The Observer's "Networker" columnist, a prominent blogger, and vice president of Wolfson College, Cambridge. The Times has said of his writing, "[it] draws on more than two decades of study to explain how the internet works and the challenges and opportunities it will offer to future generations," and Cory Doctorow raved that "this is the kind of primer you want to slide under your boss's door." In *From Gutenberg to Zuckerberg*, Naughton explores the living history of one of the most radically transformational technologies of all time. *From Gutenberg to Zuckerberg* is a clear-eyed history of one of the most central

features of modern life: the internet. Once a technological novelty and now the very plumbing of the Information Age, the internet is something we have learned to take largely for granted. So, how exactly has our society become so dependent upon a utility it barely understands? And what does it say about us that this is the case? While explaining in highly engaging language the way the internet works and how it got that way, technologist John Naughton has distilled the noisy chatter surrounding the technology's relentless evolution into nine essential areas of understanding. In doing so, he affords readers deeper insight into the information economy and supplies the requisite knowledge to make better use of the technologies and networks around us, highlighting some of their fascinating and far-reaching implications along the way.

Using the frameworks of foreign policy analysis and political culture, this book provides an insightful and analytical explanation of Indonesia's foreign policy under Suharto. It examines the various factors which have contributed to Suharto's foreign policy, the goals of this policy and the means of achieving them. It also discusses Indonesia's relations with Asian countries, and beyond, identifying their problem and prospects. As Suharto has played a crucial role in directing the policy, special attention has been focused on him. Despite many differences from the Sukarno era, Indonesia's aspiration to international leadership under Suharto remains constant. This is the most up-to-date book dealing with Indonesia's foreign policy under Suharto. This reissue features a new postscript by the author.

What does it mean to be a Muslim - in this world, in this deeply transformative time? Hamid Dabashi ask this seminal question anew, in the context of what he proposes is a post-Western world where the "Islam and the West" binary is collapsing and where "the West," as a construct, no longer holds the same normative hegemony. Against the grain of more than two hundred years of colonialism and self-alienation, Islam remains not just a world religion but a worldly religion - one that has always been conscious of itself in successive imperial settings. With the rise of European and then American imperial adventures, Muslims have been on the receiving end of other worldly empires that have forced them into a self-alienating dialogue. Dabashi argues that the urgent task facing contemporary Muslims is to bring their worlds to self-consciousness beyond the self-alienating encounter with European colonial modernity and in the context of the new worldliness that Muslims (like all other people) face. This transition requires crafting a new language of critical conversation with Islam and its cosmopolitan heritage - a language that is tuned to the emerging, not the disappearing, world.

This is the fourth, revised and updated, edition of Geoffrey Till's *Seapower: A Guide for the Twenty-first Century*. The rise of the Chinese and other Asian navies, worsening quarrels over maritime jurisdiction and the United States' maritime pivot towards the Asia-Pacific region reminds us that the sea has always been central to human development as a source of resources, and as a means of transportation, information-exchange and strategic dominion. It has provided the basis for mankind's prosperity and security, and this is even more true in the early twenty-first century, with the emergence of an increasingly globalised world trading system. Navies have always provided a way of policing, and sometimes exploiting, the system. In contemporary conditions, navies, and other forms of maritime power, are having to adapt, in order to exert the maximum power ashore in the company of others and to expand the range of their interests, activities and responsibilities. While these new tasks are developing fast, traditional ones still predominate. Deterrence remains the first duty of today's navies, backed up by the need to 'fight and win' if necessary. How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century. This book investigates the consequences of all this for the developing nature, composition and functions of all the world's significant navies, and provides a guide for anyone interested in the changing and crucial role of seapower in the twenty-first century. *Seapower* is essential reading for all students of naval power, maritime security and naval history, and highly recommended for students of strategic studies, international security and international relations.
