Thesis (M.A.) from the year 2006 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Hannover (Englisches Seminar), language: English, abstract: The present thesis deals with The Marriage of Heaven and Hell, one of William Blake's prophetic books. These are a series of texts, which were written in imitation of biblical books of prophecy, but expressing the poet's own personal romantic and revolutionary beliefs. It is not exactly known when the work was written. One assumes it was composed in London between 1790 and 1793, a period of political conflict arising immediately after the French Revolution. S. Foster Damon argues that the American and French Revolution had an immense influence on Blake writing the Marriage: The American and French Revolutions promised a better world; and stirred Blake to a new enthusiasm, from which he deduced the theory that apparent Evil, such as War, is only Energy working against established order. This was a new perception of Truth; all his problems seemed solved by it; and he hailed the light triumphantly in another book, The Marriage of Heaven and Hell (1793) Apart from the opening Argument and the Song of Liberty, the entire book is written in prose. The book is about the first person narrator's visit to Hell, a concept taken by Blake from Dante's Inferno and Milton's Paradise Lost. Like many other of Blake's works, The Marriage of Heaven and Hell was influenced by the mysticism of Swedish theosophist Emanuel Swedenborg. Moreover, The Marriage of Heaven and Hell is also in part a satire on Emanuel Swedenborg's writings, especially on Heaven and Hell from which Blake adapted the title, and on the New Jerusalem Church which was set up by Swedenborg's British followers.

The institution of marriage is under attack by the enemy. Most couples believe that their marriages were made in heaven. After a few months or years, it may appear as though the marriage made in heaven is on the brink of disaster. Most marriages are thriving, striving, surviving, or dying. This book attempts to help couples improve their marital relationship. It is especially helpful for those couples who are struggling to survive. Provides information for husbands and wives to put their marriages back on track. It also offers insight for the single person planning to marry, by reading and learning about marriage from a biblical perspective.

This vivid facsimile of Blake's romantic and revolutionary publication offers a concise expression of his essential wisdom and philosophy. His distinctive hand-lettered text is accompanied by 27 color plates of his stirring illustrations.

No work has challenged its readers like Blake's The Marriage of Heaven and Hell. His 'Proverbs of Hell' have been culled for the slogans of student protest and become axioms of modern thought. Iconoclastic, bizarre, unprecedented, it is all of these. Most extraordinary is the revolutionary method of its making. The Bodleian Library copy is one of the first that Blake printed using the method he called 'Illuminated Printing' and the only work in which he signifies

its importance. This new edition includes a complete facsimile of the work, together with a transcript, and a plate-by-plate guide to text, the interlinear figures, and the larger designs, supplied in the commentary. Drawings from Blake's Manuscript Notebook used as a basis for the designs together with working proof impressions are reproduced in this volume, showing how the work evolved. In a special section, the same plate from each of the other eight surviving copies is also reproduced to show how over a period of more than 30 years Blake altered the way each copy was finished. The introduction discusses the work's literary and historical background, the printing process used to produce it and the question of why the work was published without an imprint identifying the author and printer.

Nine essays of literary criticism of Blake's experimental fusion of verse and prose.

Combining his knowledge as a doctor and a lifelong fascination with Virginia Woolf's life and work, eminent psychiatrist Peter Dally offers a haunting and compelling look at the depression that tormented Virginia Woolf throughout her adult years, in *The Marriage of Heaven and Hell: Manic Depression and the Life of Virginia Woolf*. On three occasions Virginia went mad.

Symptoms of these episodes included conversations with her dead mother, and hearing birds speak in Greek. Though a quiet life cushioned her childhood, the renown that Woolf achieved through writing inspired the bouts of depression and elation that she regularly experienced as an adult. This terrified Virginia, and though the experience offered extraordinary insight into her craft, Woolf lived in constant fear of her dreadful affliction. Virginia's most vital protection from stress was her husband, Leonard. Without his constant vigilance and care, it is doubtful she would have been so creatively productive. Yet, paradoxically, their marriage ultimately precipitated her most dangerous bout of madness. Toward the end of her life, when events outside the couple's control led to Leonard's own depression and gradual withdrawal, Virginia found herself facing madness alone, and with tragic results. Compassionate and disturbing, this fascinating study is the first to look at Virginia Woolf's life from the perspective of her illness.

In recent years, Further Education has reached a crossroads, with questions being asked about its function, aims and focus, as well as querying the role of the FE teacher, the key aspects of the curriculum and which values should inform FE pedagogy. *Identity and Resistance in Further Education* explores these questions and effectively conveys the sense of uncertainty that those in the field are experiencing today. *Connecting Higher Education and FE* practitioners and researchers, the book gathers a collection of essays covering a range of topics, including: the journey from student to teacher, critical reflective practice as a way of organising identity, values-based teacher education and policy critique. In keeping with the themes of resistance and creativity, the chapters draw on a wide range of theoretical, as well as literary, perspectives to offer answers. *Problematizing relationships between the teacher and the institution and the teacher and government*, the book argues that the profound challenge to teachers' values and identities finds its response in a critical collegiality. This book will be of great interest to academics, researchers and postgraduate students engaged in the study of further education, educational policy and teacher education. It should also be essential reading for practitioners and policymakers.

According to The Guardian newspaper, "William Blake is by far the greatest artist Britain has ever produced." Considering Blake's achievements in poetry or the visual arts separately would be detrimental to understanding the magnitude of his work: Blake viewed these two disciplines as two means of a unified spiritual effort, and they are inseparable in correctly appreciating his work. For this reason, illustrated editions of Blake's work had not been particularly valued in the past, until advances in printing techniques have allowed greater dissemination, as they became more accessible. Blake was born at 28 Broad Street, Golden Square, London, to a new middle-class family in 1757. His father was a knitter. They are believed to have belonged to a radical religious sect called Dissenters.

In his illuminated books, William Blake combined his handwritten text with his exuberant imagery on pages the like of which had not been seen since the great decorated books of the Middle Ages. To read such books as Jerusalem, America and Songs of Innocence and of Experience in cold letterpress bears no comparison to seeing and reading them as Blake conceived them, infused with his sublime and exhilarating colours. At times tiny figures and forms dance among the lines of the text, flames appear to burn up the page, and dense passages of Biblical-sounding text are brought to a jarring halt by startling images of death, destruction and liberation. This edition, produced together with The William Blake Trust, contains all the pages of Blakes twenty or so illuminated books reproduced in true size, an appendix with all Blakes text set in type and an introduction by the noted Blake scholar, David Bindman. They can at last become part of the lives of all lovers of art and poetry.

In 1952 a country clergyman called Smith begins his tortuous quest for the Holy Grail of alchemy - the Philosophers' Stone which transmutes base metal to gold and confers immortality. As he pits himself against the bizarre perils of the Great Work, it becomes clear that his arcane transformations are as much spiritual as chemical. Gradually the shadow of alchemy falls over those around him; a young girl whose sudden pregnancy is a local scandal; Janet, trapped in a barren marriage; and Robert who pursues his own quest for the legendary blue glass of Chartres. Thirty years later, Eileen comes to live in Smith's vicarage. In the medieval cellar she unearths a hidden manuscript and begins to read of secret fire and mysterious prime matter, a green lion and a raven's head, a fatal conjunction of king and queen, a descent into Blackness and putrefaction. As she penetrates farther into the alchemical labyrinth, she is haunted both by her own history and by that of her neighbours, the menacing Mrs Zetterberg and the disfigured Pluto - and, finally, by the enigma of Smith himself. In separate but interwoven accounts, Smith and Eileen strive towards the one thing necessary for the Work's success - the great Secret guarded by the paradoxical Mercurius, who leads them to the zero point where Heaven is wedded to Earth and the miraculous Stone appears at the intersection of time and eternity. By reconstructing a highly sophisticated but almost forgotten world-view, Mercurius restores to us our own spiritual heritage which, rooted in the alchemists' dark retorts, will perhaps flower in the light of the future.

William Blake (1757-1827) was an English poet, painter, and printmaker. Largely unrecognized during his lifetime, Blake's work is now considered seminal in the history of both poetry and the visual arts. Once considered mad for his idiosyncratic views, Blake is highly regarded today for his expressiveness and creativity, as well as the philosophical and mystical undercurrents that reside within his work. His work has been characterised as part of the Romantic movement. Blake's first collection of poems, *Poetical Sketches*, was published circa 1783. In 1788 Blake began to experiment with relief etching, a method he would use to produce most of his books, paintings, pamphlets and poems. His other works include: *Tiriel* (1789), *Songs of Innocence* (1789), *The Book of Thel* (1789), *The Marriage of Heaven and Hell* (1790), *The French Revolution* (1791), *Songs of Experience* (1794) and *The Ghost of Abel* (1822). *Songs of Innocence and of Experience* is an collection of poems by William Blake. appeared in two phases. A few first copies were printed and illuminated by William Blake himself in 1789; five years later he bound these poems with a set of new poems in a volume titled *Songs of Innocence and of Experience Shewing the Two Contrary States of the Human Soul*. William Blake was also a painter before the songs of innocence and experience and made paintings such as Oberon, Titania, and Puck dancing with fairies. "Innocence" and "Experience" are definitions of consciousness that rethink Milton's existential-mythic states of "Paradise" and "Fall". Often, interpretations of this collection centre around a mythical dualism, where "Innocence" represents the "unfallen world" and "Experience" represents the "fallen world". Blake categorizes our modes of perception that tend to coordinate with a chronology that would become standard in Romanticism: childhood is a state of protected innocence rather than original sin, but not immune to the fallen world and its institutions. This world sometimes impinges on childhood itself, and in any event becomes known through "experience", a state of being marked by the loss of childhood vitality, by fear and inhibition, by social and political corruption, and by the manifold oppression of Church, State, and the ruling classes. The volume's "Contrary States" are sometimes signalled by patently repeated or contrasted titles: in *Innocence*, *Infant Joy*, in *Experience*, *Infant Sorrow*; in *Innocence*, *The Lamb*, in *Experience*, *The Fly* and *The Tyger*. The stark simplicity of poems such as *The Chimney Sweeper* and *The Little Black Boy* display Blake's acute sensibility to the realities of poverty and exploitation that accompanied the "Dark Satanic Mills" of the Industrial Revolution.

The Marriage of Heaven and Hell by William Blake *The Marriage of Heaven and Hell* is a book by the English poet and printmaker William Blake. It is a series of texts written in imitation of biblical prophecy but expressing Blake's own intensely personal Romantic and revolutionary beliefs. Like his other books, it was published as printed sheets from etched plates containing prose, poetry and illustrations. The plates were then coloured by Blake and his wife Catherine. Blake's theory of contraries was not a belief in opposites but rather a belief that each person reflects the contrary nature of God, and that progression in life is impossible without contraries. Moreover, he explores the contrary nature of reason and of energy, believing that two types of people existed: the "energetic creators" and the "rational organizers," or, as he calls them in *The Marriage of Heaven and Hell*, the "devils" and "angels." Both are necessary to life according to Blake. Blake's text has been interpreted in many ways. It certainly forms part of the revolutionary culture of the period. The references to the printing-house suggest the underground radical printers producing revolutionary pamphlets at the time. Ink-blackened printworkers were comically referred to as a "printer's devil," and revolutionary publications were regularly denounced from the pulpits as the work of the devil.
